Workshop on Thermodynamics at IISER Pune

TNN | Oct 1, 2019, 02.28 PM IST

PUNE: Earth and Climate Science department at Indian Institute of Science Education and Research (IISER) Pune is organizing a workshop on 'Thermodynamics in the Earth Sciences'. The workshop will be held by Axel Kleidon from Max-Planck-Institut für Biogeochemie, Jen.

The workshop will be held from October 10 to 15 at the Earth and Climate Science Computational Laboratory at Indian Institute of Science Education and Research (IISER) Pune. In addition to Axel Kleidon, there would be lectures by IISER Director Jayant Udgaonkar, and other professors such as Shyam S Rai and V K Gaur.

'Axel Kleidon leads a research group in Biospheric Theory and Modelling at the Max-Planck-Institute for Biogeochemistry, Jena, Germany. He uses thermodynamics to quantify natural energy conversions within the Earth system and their limits and applies this approach to understand atmosphere-biosphere interactions, Earth system responses to global change, and the natural limits of renewable energy,' said the official notification from IISER.

For registration please visit the official IISER website.
